

**ADAPT International**  
***Cordially invites you to a half day Seminar on:***

**ADVANCES IN POST-TENSIONING DESIGN AND PRACTICE**

**The Park Hotel, Kolkata – 7<sup>th</sup> December,06**      **The Park Hotel, Chennai – 11<sup>th</sup> December, 06**  
**Ramada Plaza Palm Grove, Mumbai – 13<sup>th</sup> December, 06**  
**The Park Hotel, Delhi – 15<sup>th</sup> December, 06**

Designed to give practicing engineers in India information about latest design software and practices used to increase design productivity and improve quality, the seminar will include:

- Optimization of post-tensioning design process using ADAPT design software
- Efficient creation of rebar drawings
- Automated creation of post-tensioning shop drawings
- Moving towards 3D design in Bridge sector using ADAPT ABI

All presentations will be based around live product demonstrations of ADAPT software.

**Seminar Faculty**

**Dr. Bijan O. Aalami, SE**  
CEO and Founder

A practicing structural engineer and software developer, Dr. Aalami, Professor Emeritus of Civil Engineering at San Francisco State University, is a leader in the analysis and design of concrete structures with a specialization in post-tensioning. For over three decades, Bijan has been a driving force in the structural design industry and has made significant contributions to the advancement of bridge and building design with software tools, design literature, consulting, and training services. Dr. Aalami has been actively engaged in the design and construction of numerous notable post-tensioned buildings, bridges, and special structures. Additionally, he has advanced the industry through worldwide educational seminars and extensive publications on concrete design. These resources have enriched the practice of engineers worldwide.

**Dr. Florian B. Aalami**  
EVP Sales and Marketing

Dr. Aalami is driving ADAPT's global sales and marketing strategy by further strengthening the company's position as the leading provider of software and specialty consulting services for the concrete design industry. Florian's extensive career in AEC software development includes his founding of BuildPoint Corporation, where he served as CTO and Vice President of Business Development. Dr. Aalami earned a bachelor's degree in civil engineering from the University of California, Berkeley and both a master's degree in structural engineering and a doctoral degree in construction technology from Stanford University

**Free Registration: 9.30 A.M. onwards**

**The seminar will be followed by lunch.**

**Free Registration Form :**

To CONFIRM your participation, please fax this registration form to 033-30286581 or call Ms. Sumita Paul at 033-30286580 or email to us at sumita@adaptsoft.com
