

INVITATION FOR WORKSHOP

ADAPT Corporation Presents a Full-day Software Training Workshop on:

DESIGN OF POST-TENSIONED FLOOR SYSTEMS USING ADAPT SOFTWARE

- learn the state-of-art in post-tensioning design software -

Knowledge Village – Wednesday, November 15, 2006

Purpose of Workshop

This workshop is for existing and or prospective ADAPT software users. Starting with an architect's drawing, the participants will be walked through the design process all the way to the creation of the construction drawings using the latest ADAPT software. Participants will learn about new productivity enhancing techniques that will allow them to design their projects faster. Design steps covered in the workshop include:

- Generation of a Structural Model from the Architect's Plan in ADAPT-Builder Express
- Selection of Material Properties, Loading, Prestressing and Other Design Requirements
- Creation of Design Strips and optimization of design for prestressing using ADAPT-PT
- Tendon Layout Using ADAPT-Floor Pro Express (EX)
- Design of the Floor System Using ADAPT-Floor Pro EX 3D Finite Element Software
- Generation of Calculation Package for Submittal to the Municipalities
- Creation of Structural Drawings, and Detailing for Approval and Construction
- Estimate of Quantities

Enrollment is strictly limited to 15 participants.

Workshop Faculty

Dr. Florian Aalami is Executive Vice President of ADAPT Corporation and is responsible for the company's overall product development strategy and international business development activity. Dr. Aalami holds a Ph.D. in engineering from Stanford University.

Ms. Carine Magalhaes is Manager of Engineering Services at ADAPT Corporation. Her responsibilities include the management of the company's global engineering services projects. Her extensive post-tensioning design experience includes many projects in UAE.

Venue & Timing

Knowledge Village, Dubai **(From 9:00 AM to 5:00 PM)**

Fee

1,500 Dhs
